

WinTMC

A complete solution for organizations that use PCs as part of their Remote Desktop Services network.

WinTMC will allow you to manage your PCs and host applications on Remote Desktop Servers, simplifying network-wide updates and significantly reducing your TCO.

WinTMC BRINGS THINMANAGER READY CLIENT FUNCTIONALITY TO YOUR WINDOWS PC

You can use versatile ThinManager functions such as SmartSession, MultiSession, AppLink, Instant Failover, and other features on your Windows PC. You will now have more options when managing, configuring, and designing your entire Terminal Server Network.

REMOTELY MANAGE YOUR PCS By centrally configuring WinTMC, you can also directly manage all of your networked PCs directly from ThinManager. Network Administrators can use ThinManager's shadowing capability to remotely view and control the PC's desktop even when the user does not have an active terminal server session.

RUN APPLICATIONS ON YOUR PC OR TERMINAL SERVERS Some users may have the need to run local applications. With WinTMC they can easily switch between applications running locally and WinTMC terminal server sessions.

WinTMC & TABLETS ThinManager's Windows® client application, can be used with tablets running full Windows10 or higher to create a thin mobile experience on a Surface Pro tablet or other Windows10 enabled device.

WinTMC PROVIDES THE FLEXIBILITY TO UPGRADE OVER TIME WinTMC can be configured to act just like a ThinManager Ready thin client. This is ideal for gradually moving from PCs to dedicated ThinManager Ready thin clients, providing flexibility in your IT budget to invest in new thin client hardware as needed.

NEW!

SUPPORT FOR VIRTUAL SCREENS

WinTMC now supports Virtual Screens so composite applications can be delivered to PCs and Windows tablets running Windows 10 or higher.
