

MULTIMONITOR

Customize every screen to display your content in any layout you wish.

Increase visualization and expand your view by displaying individual applications on their own monitor or span large applications across several monitors through a single terminal.

ThinManager provides several features for delivering content in a customized format.

MULTIMONITOR

MultiMonitor allows to display up to seven monitors on a single thin client*. MultiMonitor can be used to span sessions across monitors and/or run individual or multiple sessions on each monitor. Touchscreens are also supported.

MultiMonitor supports spanned resolutions up to 8192 x 8192 with 64K colors for MS Server 2012 and newer. MS Server 2008 and prior are limited to a spanned resolution of 4096 x 2048.

* Appropriate hardware required.
