

# LICENSING

Complete Platform.  
Scalable Solution.  
ROI Tools.

Unique hardware enabling technology. Scalable thin client management solution.

## **XLr STANDARD LICENSING (5-Packs, 10-Packs, 25-Packs)**

Relevance, MultiMonitor, PXE Boot, WinTMC, MultiSession, SmartSession, Virtual Machine Management, iOS Apps, AppLink, Automatic Failover, Instant Failover, Terminal Shadowing, Remote Management, Redundant Ethernet, Touchscreen Support, Shared Keyboard & Mouse and more.

## **ENTERPRISE LICENSING**

**A Redundant Enterprise Server License** can be installed on one or two machines. If installed on two machines, the machines must be configured as a synchronized ThinManager server pair. The license allows an unlimited number of concurrent terminal connections on a single network at a single facility.

## **REDUNDANCY**

ThinManager offers 2 options for redundant servers:

**Mirrored Redundancy** synchronizes a pair of servers, one acting as a primary server while the other acts as a "view only" interface.

**Full-Redundancy** uses a redundant pair of servers storing configurations on both with a fully accessible ThinManager GUI.

## **RELEVANCE LOCATION-BASED MOBILE SOLUTION**

Easily add location-based functionality to your ThinManager installation.

## **MUNICI-PACK LICENSING**

This licensing model allows for municipalities to allocate their licensing across multiple sites and facilities within a single municipal jurisdiction.
