

# LICENSING

Complete Platform.  
Scalable Solution.  
ROI Tools.

## Unique hardware enabling technology. Scalable thin client solution.

### Flexible Volume Licensing

ThinManager's new flexible volume licensing (V-FLEX) allows users to purchase a single connection license or buy in bulk to take advantage of built-in volume-based discounts. V-FLEX licensing can be used across your facilities and domains as you see fit. We now offer two tiers of support coverage in our Software Maintenance packages – 8x5 and 24x7. Better yet, the first year is included!

### Subscription

ThinManager can now be licensed by annual subscription. Whether you choose FactoryTalk™ Activation or ThinManager Activation, we have you covered. If your organization prefers paying annually for software, we can now accommodate you. This is the perfect option for any business that expects changes in the number of end-user seats needed year to year.

### ThinManager Activation (TMA) or FactoryTalk Activation (FTA)

Beginning with ThinManager version 11 and FactoryTalk View SE version 11, users have a choice on how they wish to activate their licenses. They can choose traditional ThinManager Activation (TMA) or FactoryTalk Activation (FTA). For instructions on ThinManager Master License activation please see <https://thinmanager.com/activate>. If using FactoryTalk Activation, you must change the Licensing Mode in ThinManager by clicking the Install ribbon followed by the License Mode icon. You can activate your license using the FactoryTalk Activation Manager from the machine where ThinManager is installed, if it has access to the Internet, or from <https://activate.rockwellautomation.com>.

Feature	TMA	FTA
Supports Redundancy	X	X
Available on the eCommerce Portal		X
Automatic Activation Updates Available		X
Centralized or Remote License Hosting		X
Ability to Rehost Activations within the Tool		X
Manage Activations Across the Enterprise Online	X	X
Can be used to Activate Software on Offline Computer	X	X
Offered in Subscription and Perpetual + Maintenance	X	X
Supports ThinManager Versions 10 and earlier	X	

### Redundancy

Full-Redundancy uses a redundant pair of servers storing configurations on both with a fully accessible ThinManager GUI. Taking measures to eliminate downtime is crucial in today's production and business environment. Now you can add redundancy to your ThinManager environment at a lower cost per license.

### Software Maintenance

Support for ThinManager software comes in two flavors—24x7 and 8x5, depending on the times and level of support you might need. All current Software Maintenance subscribers receive complimentary version upgrades.

### Upgrades

Using an older version of ThinManager? Not current on your Software Maintenance plan? We offer a path to quickly get all of your ThinManager installations up-to-date. For more information, please contact [insidesales@thinmanager.com](mailto:insidesales@thinmanager.com).
