ThinManager Training Roadshow Detailed Agenda

8:30 a.m. – 9:00 a.m. Introductions

9:00 a.m. – 10:00 a.m. Introduction to ThinManager

Presentation of ThinManager Platform

Demonstration of Software using Demo Kit Hardware

10:00 a.m. – 10:15 a.m. Break

10:15 a.m. – 12:00 p.m. HOL All-In-One–ThinManager Lab

Installation of the Remote Desktop Services Role

Installation of an HMI (FactoryTalk View SE) and Installation of ThinManager

Defining and configuring Remote Desktop Servers, Display Clients, and Terminals

AppLink for single applications

MultiSession and Tiling, MultiMonitor and Virtual Screens

12:00 p.m. – 1:00 p.m. Lunch / Break / E-mail

1:00 p.m. – 2:00 p.m. Architecture and Best Practices

ThinManager Server vs. Remote Desktop Server

ThinManager in a Rockwell system

Reference Architectures

Licensing

2:00 p.m. – 2:15 p.m. Break

2:15 p.m. – 4:30 p.m. HOL All-In-One–ThinManager Lab

Terminal Replacement

Relevance User Services and Relevance Location Services

DHCP Server, Firewalls, and Ports, Firmware Packages and Modules

Relevance and Geo-Fencing

4:30 p.m. Wrap-up and Questions

ThinManager Certification Benefits

System Integrators and OEMs can become ThinManager Certified Partners

ThinManager Certified Partners receive the following benefits:

- Access to an annual lab license (10 clients of Redundant XLr)
- Access to project license (10-Pack of Redundant XLr for 90 days per project)
- Project & lab licenses include Software Maintenance which includes free version upgrades & tech support
- Technical support for a customer that is current on Software Maintenance
- Searchable listing on ThinManager website
- ThinManager Partner badge to display on your website

System Integrators and OEMs who complete the training become ThinManager Certified Partners, receive training certificates, lab licenses and a listing on thinmanager.com.

3 Steps to Host Training

Step 1 – Request a Week to Host ThinManager Roadshow Training

Follow instructions to request a ThinManager SI-OEM Training Roadshow

- **Fill in the Roadshow request form at <https://thinmanager.com/roadshow/request>**
 - ThinManager Training Roadshows are being delivered in-person for 2023.
 - You will be contacted by the ThinManager events team once your submission has been reviewed.
 - If approved, your event will be added to the roadshow schedule and resources assigned.
 - Training content is provided on Tuesdays and Wednesdays of available weeks.

Step 2 – Invite SIs, OEMs to Roadshow Training

Get people registered for your event

- **Once your event has been approved and added to the schedule, you will receive marketing materials from the ThinManager events team that you may use to invite participants. Here's what is included...**
 - **ThinManager will be hosting the event registration forms for this year's training.** You will receive a unique URL (link) to use to get people to register for your event. Each full-day of training will have a unique registration link.
 - A PDF with course description and details that you can attach to email invitations will be provided.
- **Invitations should be sent to appropriate recipients only. Please do not invite End-Users. They will not be permitted to attend.**
- **Internet access is required for participants.**

Step 3 – Maintain the Roadshow Training Guidelines

ThinManager training guidelines for 2023

- **Limit of 12 for hands-on MR Demo training (*registration forms enforce this limit*)**
 - **Training space must be adequate** to accommodate the hands-on demo kits, **students are not permitted to work together**. Any student found to be doubling up at a workstation or. A **minimum 6-foot table** is required per user, in order to provide enough room for all the training equipment. For the SI, OEM Certification training working as a team will not receive certification.
- **Registrations for each lab are final two days prior to the training event. Tuesday event registrations will be finalized Friday of the previous week and Wednesday registrations will be finalized by end of day on Monday prior to the training event.**
- **These are the requirements for each week of training:**
 - At seven business days prior to your event, you must have a minimum of 14 registrants (e.g. 8 registrants for Tuesday, and 6 registrants for Wednesday) in order to maintain the MR Demo kit shipping for hands-on training. If you do not have the minimum registrants at seven business days prior to your event, it will automatically change to cloud-based training, and no MR Demo kits will be shipped. Registrants will then need to have a laptop, external monitor, and adequate high-speed Internet to access the virtual training.
